HERBAL GARDEN ACTIVITIES

The Green Committee of Priyadarshini Dental College has developed and maintained a Herbal Garden with necessary herbal plants (**Basil:** *Ocimum sanctum*, **Turmeric:** *Curcuma longum*, **Aloe Vera:** *Aloe barbadensis*, **Neem:** *Azadirachta indica*, **Ginger:** *Zingiber officinale*). This herbal garden not only adds aesthetic appeal to our surroundings but also provides a plethora of benefits. Herbal garden contributes to conservation efforts by preserving endangered or rare plant species, ensuring their survival for future research endeavors.

Overall, these green spaces provide a dynamic and holistic platform for interdisciplinary research. The institutional herbal garden is well maintained and upgraded on a regular basis with new varieties. Frequent competitions are organized pertaining to herbal gardening to instill interest among students. This provides an opportunity for the students and staff members to carry out more research works.

The students of second year learn how to use plants with medicinal purposes for the making of dentrifices in the pharmacology laboratory. The CRI students along with staff members are benefitted by herbal garden for conducting various research activities.

The following research papers were published by the students and staff members of PDCH in the field of herbal dentistry:
