To,
The Principal,
Priyadarshini Dental College & Hospital,
Pandur, Thiruvallur- 631203

Greetings from Light a life - Reena Raju foundation.

I, Ms. Reena Raju, founder of light a life foundation is writing to propose a collaborative initiative aimed at conducting a survey and creating awareness of organ transplantation of terminal illness within Thiruvallur district. I believe that the project has the potential to create significant impact on the lives of individuals suffering from terminal illness and their families.

As you may be aware, terminal illness pose immense challenges to both the individuals and their dependants. In many cases, Organ transplantation can offer a ray of hope and chance for extended life. However, there is often a lack of awareness and understanding about it leading to missed opportunities to potential lifesaving treatments. To address this issue, we are seeking to partner with your institution, known for its commitment in health care education and research. I believe that your expertise and resources would greatly enhance our efforts in the project in Thiruvallur district. Additionally, we are happy to fully fund this project of Rupees twenty thousand only (Rs 20,000-), covering all the expenses related to the survey, awareness, campaign and any other associated costs. We would be happy to hear from you at the earliest regarding this collaboration.

Thanking You,

PRINCIPAL
PRIYADARSHINI DENTAL COLLEGE & HOSPITAL
PANDUR - 631 203.
THIRUVALLUR TK & DIST. TAMIL NADU

Yours faithfully

Priyadarshini Dental College & Hospital,
Pandur, Thiruvallur- 631203.

I hope this letter finds it well.

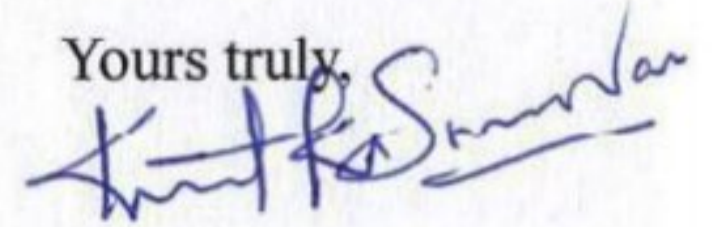

My name is Mr. Karthik Srinivasan Varma, Founder & CEO, Saai Electro Biogenic India Pvt Ltd and I am writing to express my interest in conducting a study with our esteemed product Chitosan and provide us with the results. We are particularly intrigued with the innovative features and potential benefits offered by chitosan in dentistry. We believe that conducting a comprehensive study in using chitosan in extraction sites and other surgical sites would not only enhance our understanding of its capabilities but also provide valuable insights that could benefit both our company and broader community. In exchange of this opportunity to conduct the study, we are willing to provide funding support of Rupees twenty thousand only (Rs. 20,000/-) from our company. The funds would cover expenses related to research material, participant recruitment, data analysis and dissemination of findings.

I am available at your earliest convenience to discuss the opportunity further and address any questions or concerns you may have.

Respected Sir,

Greetings from Udhavum Nanbargal trust!

On behalf of Udhavum Nanbargal Trust, I am writing to express our willingness for a collaborative research project on investigating fluoride levels in our community and their influence on dentition. We are eager to partner with Priyadarshini Dental College and Hospital to conduct this research and we are willing to provide funding for this project. By conducting this Research, we aim to gain insights into the fluoride exposure of our community members and its correlation with dental health outcome. The proposed research involves collecting samples to measure fluoride levels on various sources such as drinking water and dental products. We will also conduct survey to gather data on oral health outcomes and fluoride exposure among community members. By analysing the data, we hope to identify the trends and correlations that can inform public initiatives aimed at improving dental health in our community. We are excited about the opportunity and partner with your institution on the research project and contribute to the advancement of oral health knowledge in our community.

I hope this letter finds you well.

I am writing to you on behalf of Chinmaya trust, an organization dedicated to health initiatives within our community. We are interested in collaborating with Priyadarshini Dental College & Hospital to conduct a survey and provide fluoride application among the children of Thiruvallur as a part of our efforts to improve oral health. We believe that it may make a meaningful impact on children's dental health of our community. We strongly believe that it helps us to identify the areas of concern and tailor our intervention to address specific needs effectively. We also believe that fluoride application would effectively prevent the children's dentition against dental caries and promote oral health. We also express our interest to provide financial support for this project as you complete the project and provide us with a detailed project report along with related expenses.

Looking forward to work together to improve oral health outcomes in our community.

Respected Sir,

Greetings from Pasumai trust!

I am writing to you on behalf of Pasumai trust, a plant nursery - based trust committed to using the herbal plants for health and well-being. We are interested in collaborating with Priyadarshini Dental College & Hospital to conduct a study on oral health benefits of herbal plants provided by our trust. We believe that conducting a comprehensive study on this topic would not only contribute to the scientific understanding of the herbal remedies but also provide valuable insights that could benefit dental practitioners and patients alike. The proposed study aims to investigate the oral health benefits of specific herbal plants cultivated by our trust for reputed medicinal properties including antimicrobial, anti-inflammatory and analgesic effect. We are willing to provide the funding support for the study upto Rupees twenty thousand only (Rs. 20,000/-) covering all the related expenses. We request you to get the necessary approvals and permissions regarding the same from your end for the successful completion of the study. Kindly consider our proposal and let us know about your willingness to be a part of the study.

Thanking you

I hope this letter finds you in good health.

I, the representative of Smile India charitable trust, a dedicated organisation committed to improving public health outcomes. I am writing to propose a collaborative project and at addressing and assessing the oral needs of children in the Thiruvallur area. We recognise the importance of early intervention and preventive care in promoting oral health among children. Therefore, we are eager to partner with Priyadarshini Dental College and Hospital, a distinguished institution renowned for its expertise in oral health education and research, to conduct a comprehensive study on this topic. Our proposal involves conducting a thorough assessment of oral health status, including factors such as dental caries prevalence, oral hygiene practise and access to oral care services. Additionally, we aim to provide necessary treatment and intervention through your college to address any identified oral health issues among the children participating in the study.

We are pleased to inform you that the Smile India Charitable trust is prepared to fully fund this project covering all expenses associated with research material, personnel, dental treatment and other related cost. Our goal is to ensure that cost is not a barrier to access quality dental care for children in our community. We are confident that the expertise and resource available at your college with greatly enhance the success of this project. Awaiting your reply at the earliest.

Thanking you

Yours sincerely,

The Principal,
Priyadarshini Dental College & Hospital,
Pandur, Thiruvallur- 631203.

Respected sir,

I Mr. Karthick, Area divisional manager from Safe Dental lab, writing to propose a collaborative effort between our lab and Priyadarshini Dental College & Hospital to conduct a survey regarding edentulous patient in Thiruvallur area. As a renowned institution dedicated to dental education and research, your college possess a wealth of expertise and resources that could greatly complement our efforts to Investigate the prevalence and oral health needs in edentulous patients in Thiruvallur area, given the significance of this topic and its implication in dental practice and public health, we believe the comprehensive survey provides invaluable insight for clinician, researcher and policy makers alike. The proposed survey aims to assess the prevalence of edentulous patients, identity the associated risk factor and evaluate the quality of life among edentulous patient in Thiruvallur area. By systematically gathering and analysing the data from representative sample of local population, we seek to generate evidence-based recommendation for improving the delivery of dental care and enhancing the overall well -being of edentulous individuals. In order to facilitate the successful execution of the survey. we are happy to provide financial support upto Rupees fifteen thousand only (Rs-15000/) to your esteemed institution. We are eager to collaborate on this journey together and contribute to the advancement of dental research and patient care in Thiruvallur community.

Thanking you,

5st Street, 1th Bulding, B.K.Nagar Tirupathur, Tamil Nadu 635601 India
